

The 2027 Moon Calendar

& Reflection Journal

Every new, quarter and full moon of 2027, the Wheel of the Year,
and a gentle journaling page for each month.

How to use this calendar

The moon has been a shared clock for people across the world for thousands of years. This calendar gives you the exact time of every moon phase in 2027, so you can pause, notice and reflect on a rhythm that is bigger than your to-do list.

A simple monthly rhythm

- **New moon:** choose one small intention.
- **First quarter:** take one gentle step.
- **Full moon:** notice what has grown, and give thanks.
- **Last quarter:** let something go.

Each month has its own page with the phase times and one reflection prompt for each phase. Write as much or as little as you like. Five quiet minutes counts.

About the times. Phase times are calculated astronomically and shown in US Eastern time and UK time (daylight saving included). The moon looks full for about a day either side of the exact moment, so there is no need to stay up for the minute.

This journal is for reflection and enjoyment. Moon phases do not determine your mood, health, safety or outcomes, and nothing here is a prediction or professional advice. If you light a candle, never leave it unattended.

Full moon names are traditional North American folk names. The Harvest Moon is the full moon closest to the autumn equinox; a Blue Moon is the second full moon in one calendar month.

The Wheel of the Year 2027

Eight seasonal festivals observed in many modern pagan traditions. Dates are for the Northern Hemisphere; in the Southern Hemisphere the wheel turns the other way.

Festival	Date	Meaning
Imbolc	Feb 1	Traditional cross-quarter festival of first light.
Ostara	Mar 20	Spring equinox (Northern Hemisphere).
Beltane	May 1	Cross-quarter festival of blossoming.
Litha	Jun 21	Summer solstice, the longest day.
Lughnasadh	Aug 1	First harvest festival.
Mabon	Sep 23	Autumn equinox, day and night in balance.
Samhain	Oct 31	Remembering ancestors as the year turns dark.
Yule	Dec 21	Winter solstice, the return of the light.

A seasonal reflection

At each festival, ask: What is this season inviting me to begin, celebrate, harvest or rest?

Eclipses in 2027

Date	Eclipse
Feb 6	Annular solar eclipse
Feb 20	Penumbral lunar eclipse (a subtle dimming of the full moon)
Jul 18	Very slight penumbral lunar eclipse
Aug 2	Total solar eclipse: the path of totality crosses southern Spain, North Africa and the Middle East
Aug 17	Penumbral lunar eclipse

Visibility depends on where you are. Never look at the sun without certified eclipse glasses.
